A brand is a promise kept the same way, every time. This book shows how.

A — FIXED

Logo artwork, colour values, typeface, clear space and minimum sizes. Never redraw or approximate.

B — FLEXIBLE

Layout, colour pairings, pattern crops and the peek. Play inside the rules — that is where the brightness lives.

C — IN DOUBT

Fewer colours, more cream, a bigger logo. Then ask the brand team.

01

Foundation

Who Alima is, what we believe, and the character behind every piece of work.

1.1 — OUR STORY

Marketing brighter together.

Alima is a marketing partner for brands that want to grow with clarity and character.

We bring strategy, content, growth and impact under one roof — and we do it with our clients, not just for them. Bold where it needs attention, clear where it needs trust, always measured by results.

Our panda looks up and forward: curious, optimistic, friendly. Our tagline is our method — bright thinking, made side by side.

1.2

Purpose

Three statements every piece of work should be able to answer to.

A — MISSION

To make marketing brighter: clearer strategy, braver content and growth you can measure.

B — VISION

Every ambitious brand with a partner that helps it shine.

C — PROMISE

Bold ideas. Real impact.

1.3

Four pillars, one promise.

Strategy

Insight first. The clearest route from here to there.

Content

Stories and campaigns people stop for.

Growth

Channels and optimisation that build momentum.

Impact

Results we can name and measure.

1.4

Personality

TRAIT	WE ARE	WE ARE NEVER
Bold	Confident, decisive, clear	~~Loud for the sake of it~~
Bright	Optimistic and energising	~~Naive or childish~~
Together	Collaborative and generous	~~Passive or vague~~
Smart	Strategic and evidence-led	~~Cold or jargon-heavy~~
Playful	Curious, witty, surprising	~~Silly at anyone's expense~~

1.5

Meet the panda

01 Eyes up and forward
The direction of optimism and progress.

02 The goggle mask
One band: focus, vision, the lens we bring.

03 The smile
Small and sideways. Human, never goofy.

04 Rounded everything
Soft ears echo the wordmark's terminals.

02

Logo

Our most valuable asset — how it is built, placed, sized and protected.

2.1

The signature

Panda mark and wordmark, locked together. Deep Teal on Cloud Cream is our default wherever width allows.

2.2

Construction

Height. The mark sets logo height H. Wordmark x-height is 0.42 H.

Gap. Mark to wordmark is fixed at 0.13 H. Never adjust it.

Letters. Custom lowercase, round terminals. Never retype it.

2.3

Lockups

Four versions, one family. Choose by the shape of the space, not by taste.

A — HORIZONTAL · PRIMARY

Web, decks, letterhead, signage, video

B — STACKED

Square and tall formats: merch, posters, packs

C — MARK

Avatars, app icons, stickers — once the name is known

D — WORDMARK

alima

Tight horizontal spaces, or when the panda is nearby

2.4

Clear space

X = the height of the wordmark’s “a”.

That is 0.42 × logo height. Keep X free of text, edges and graphics on every side. More is always welcome.

MARK ALONE: X = ONE EAR WIDTH

2.5

Minimum sizes

Below these sizes the pupils and smile fill in. Switch lockup or leave the logo out. Favicons use a 16 px Teal tile.

The logo needs calm. On patterns, sit it on a solid plate; on photos, find a flat area or add a 50% Ink scrim.

DO — SOLID PLATE ON PATTERN

DO — CALM, FLAT AREA

DON'T — STRAIGHT ONTO PATTERN

2.8

Never do this

Also never retype the wordmark, crop the ears, turn the pupils, or animate the logo without an approved motion file.

4.4

Setting type

01 Sentence case. Caps only for tracked eyebrows.	**02 Flush left.** Ragged right; centre only short covers.
03 Tight. Headlines at 0.95–1.1 leading, negative tracking.	**04 Full stop.** Statements end with one, sometimes orange.
05 The dash. One rounded orange rule per layout.	**06 Measure.** 45–75 characters. No widows.

٠١٢٣٤٥٦٧٨٩ — 0123456789

4.5

Arabic

Tajawal shares Poppins' geometric, low-contrast build — one voice in two scripts.

- Set Arabic 10–15% larger than Latin
- Bold for headlines, Regular for text
- Mirror layouts; never mirror the logo
- No letter-spacing on Arabic, ever

05

Elements

The snout, the patterns, the peek, icons and imagery — the details that make Alima unmistakable.

MIN 12 PX · 4 MM

5.1

The snout

The panda’s nose and smile, lifted out as our smallest signature. A wink, not a logo.

Use for stickers, seals, list markers, loaders, sign-offs

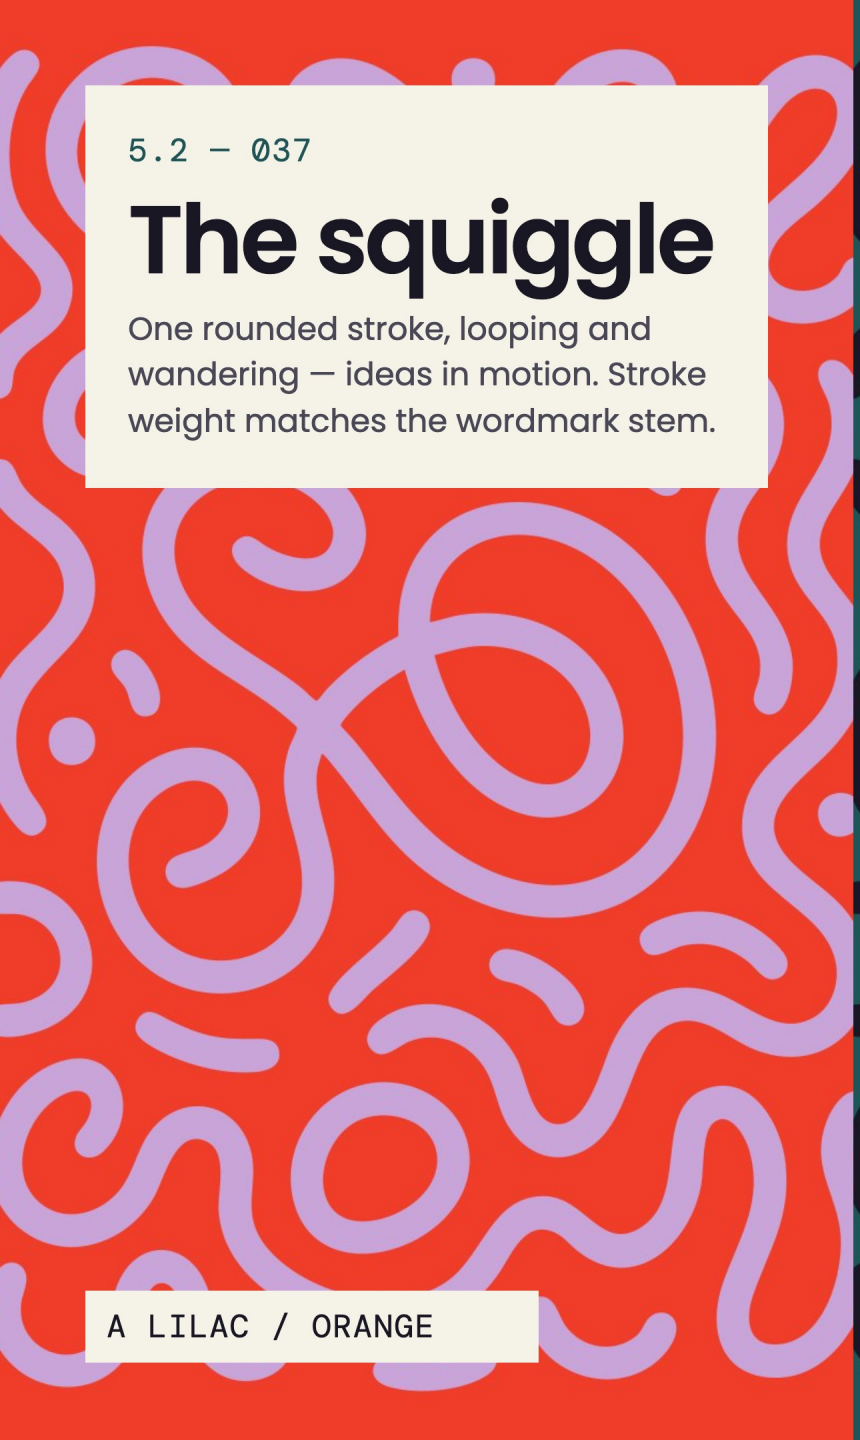

Colour any palette pair with 3 : 1 contrast

Never next to the full mark, or rotated

5.2 — 037

The squiggle

One rounded stroke, looping and wandering — ideas in motion. Stroke weight matches the wordmark stem.

A LILAC / ORANGE

B INK / TEAL

C CREAM / LIME

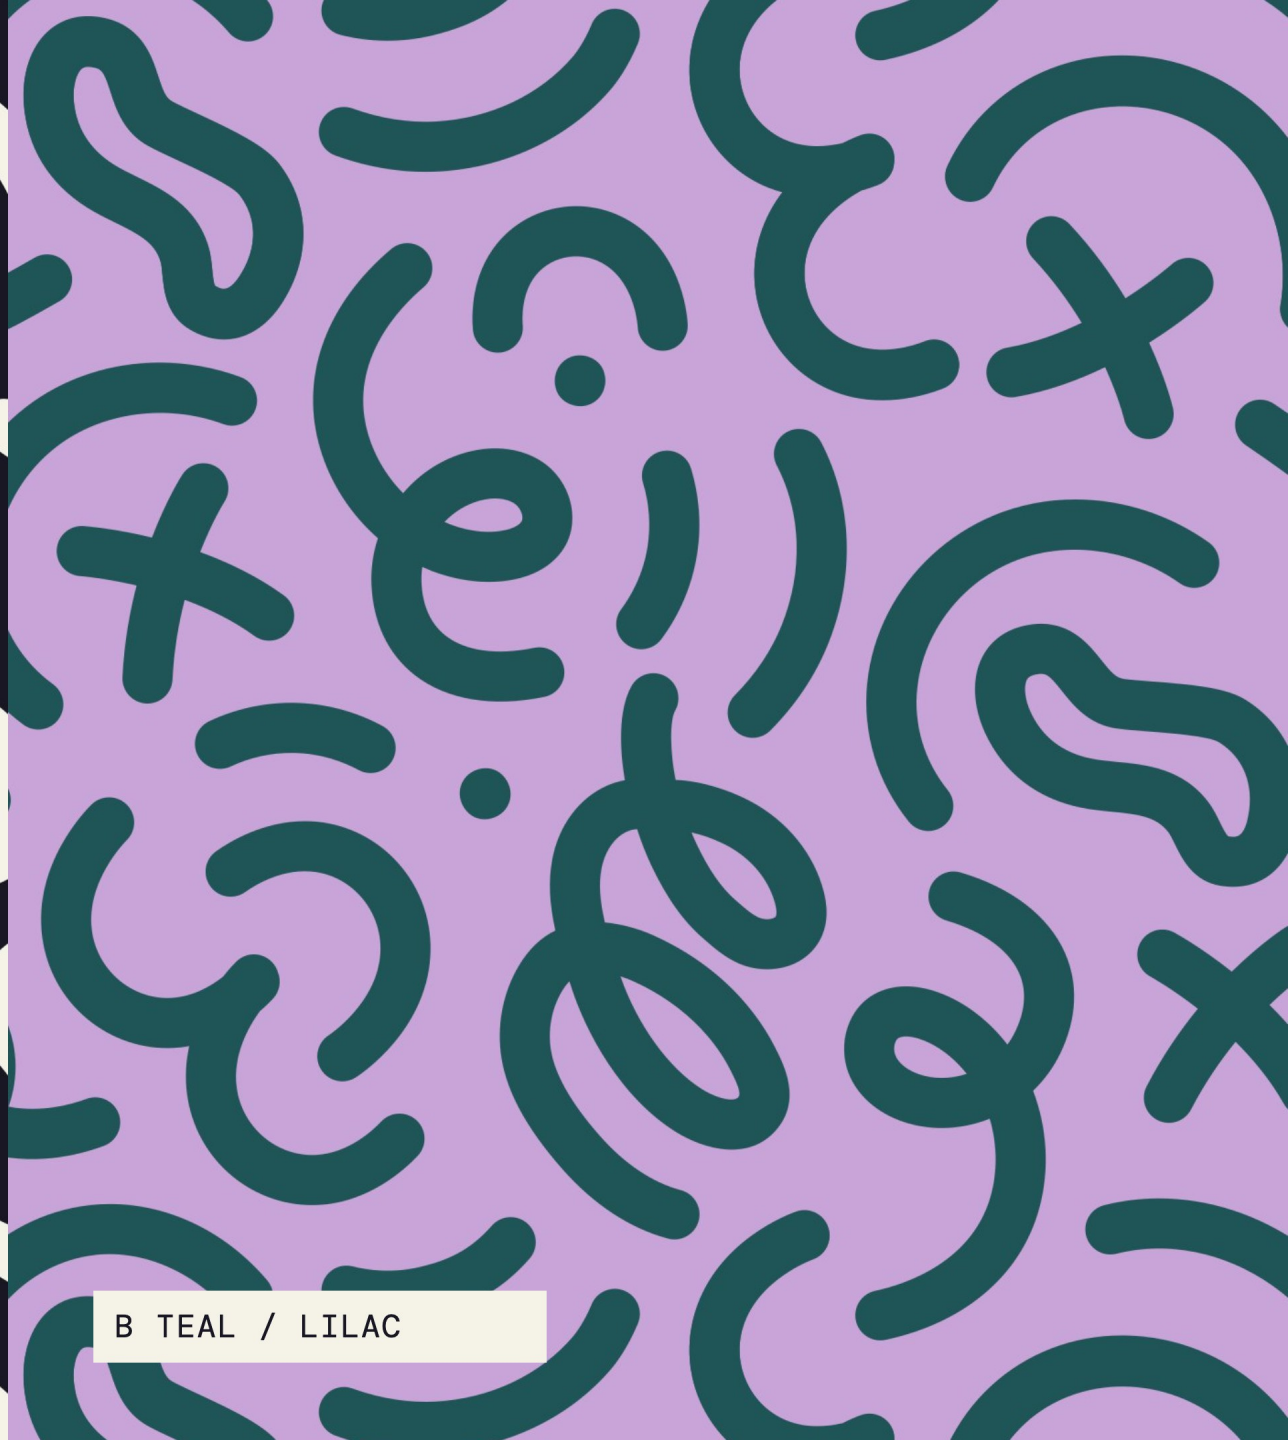

5.3 — 038

The confetti

Chunky loops, crosses, dots and swooshes — the celebration after the idea lands. Heavier than the squiggle; use it big.

A CREAM / INK

B TEAL / LILAC

5.4

Pattern rules

Do

- Full-bleed backgrounds, panels, packs
- Crop freely — it has no edges
- Strokes ≥ 2 mm print, ≥ 6 px screen
- Two colours from an approved pair
- Text on a solid panel above it

Don’t

- Recolour into three or more colours
- Run body text over the pattern
- Stretch, skew or distort it
- Mix squiggle and confetti
- Redraw or trace it — use masters

5.5

The peek

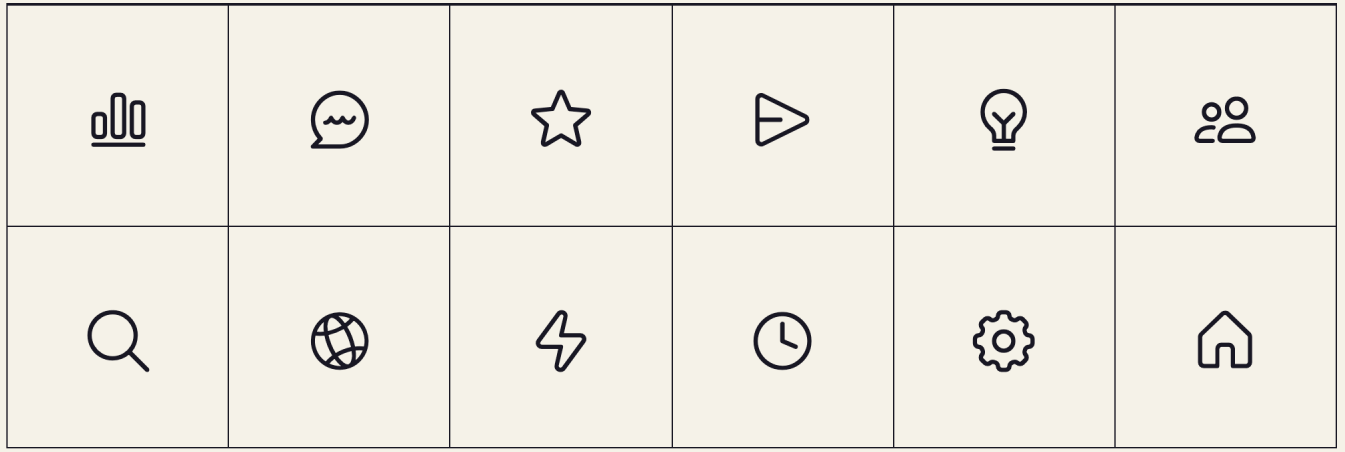

The panda, scaled up and cropped by the frame — curious, peeking in.

- Both eyes stay in frame
- Bleed off one or two edges
- At least 3× any logo nearby
- One peek per layout, one colour

5.6

Icons

Rounded line icons, drawn with the same pen as the panda.

Grid	24 px, 2 px stroke, round caps
Base set	Lucide (open source), extended
Colour	one colour only, never multicolour
In UI	always paired with a label

FEATURE ICONS — SOLID CIRCLE AT 2× ICON SIZE

5.7

Imagery

Real people, real work, real light. Never stock that could belong to anyone.

01

Candid, human

Real teams and moments. Candid over posed.

02

Bright and warm

Daylight, lifted shadows, a warm grade. Never moody.

03

A spark of colour

One palette colour in frame — a wall, a jacket, a prop.

04

Room for type

Calm negative space for the headline and logo.

05

Square crops

Full bleed or sharp rectangles; soft shapes come from the panda.

06

Avoid

Handshakes, pointing at screens, heavy filters, off-palette duotones.

06

Voice

How Alima sounds: bright, bold, clear — and always on your side.

6.1

How we sound

Four principles. If a sentence breaks one, rewrite it.

Bright.	Optimistic. We lead with the opportunity.	“Here’s what this could become.”
Bold.	Direct. We make a call and explain it.	“This will work. Here’s why.”
Clear.	Plain words, short sentences, zero jargon.	“More people, more often, for less.”
Together.	Warm. We write with people: we, you, us.	“Let’s build it together.”

6.2

Rewrites

Check every line: is it clear, confident, human? Would a client nod?

INSTEAD OF	WE SAY
~~We leverage synergistic omnichannel solutions.~~	**We connect every channel so your message lands.**
~~Best-in-class, award-winning results.~~	**Results you can see — and how we got them.**
~~Please do not hesitate to contact us.~~	**Got a question? Let’s talk.**
~~Unfortunately, the campaign underperformed.~~	**We missed the target. Here’s the fix.**
